NEW Online Platform

Thank you for registering for the ICQ. This year we are no longer running the ICQ from the moodle site. We have switched to a new online platform as it is far superior and it is very user friendly. There are many benefits to this platform such as:

- results will be marked faster,
- teachers can access the results,
- and certificates issued at an earlier date.

To prepare for Quiz day, the teacher should follow this guide and create an account with our online platform in advance.

Create an Account as a Coordinator

To Access the ICQ this year, and purchase, you will already have an account with the platform.

If you wish other teachers to assist you in arranging the ICQ they can join the platform too.

Please allow plenty of time so we can approve the account in time.

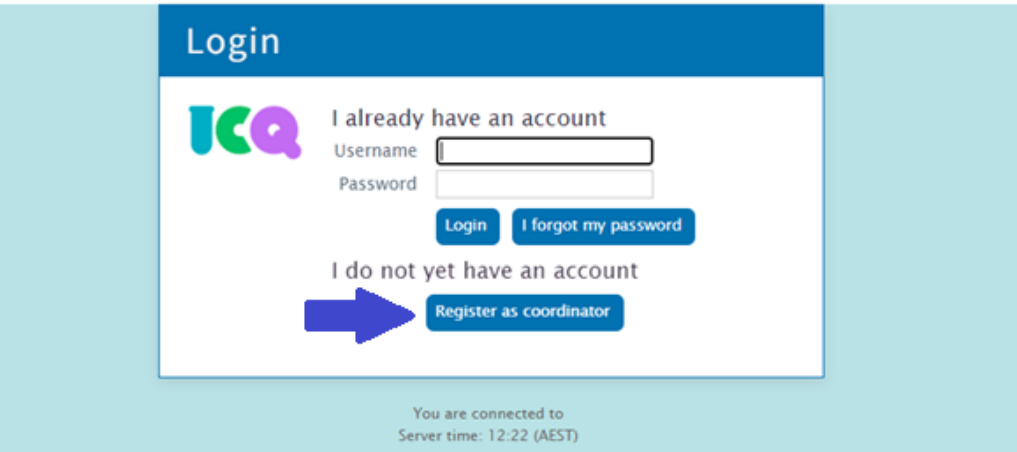

Here are some things to remember when creating your account:

Please ensure you select the correct School in the correct State and Country.

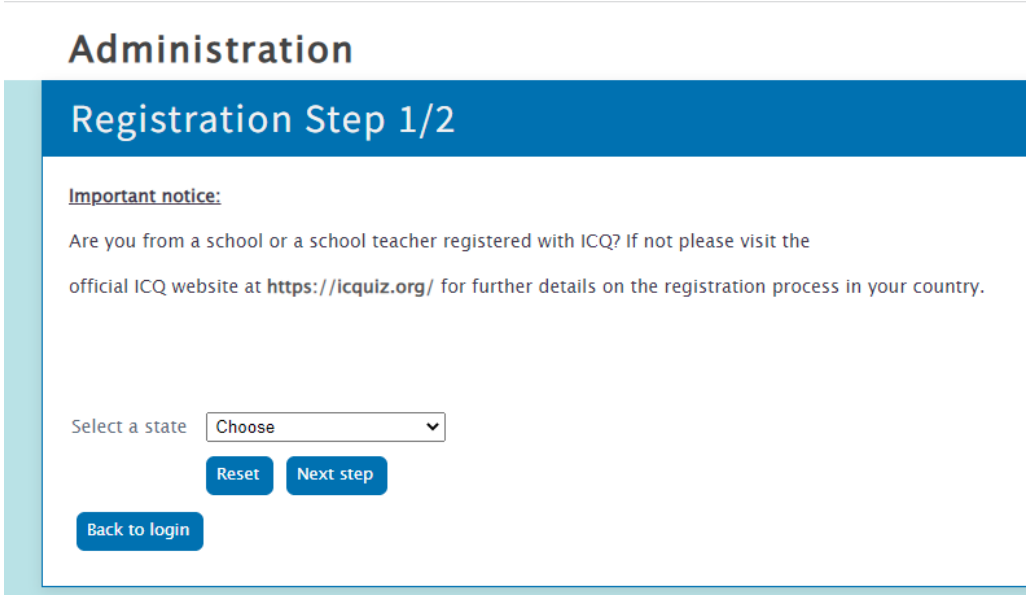

(Remember this is an international quiz and schools overseas may have the same name).

If you do not see your school listed, please contact us at icquiz@raci.org.au as we may need to add your school to the platform.

To create an account, visit the competition platform located at https://icquiz-raci.org/admin/

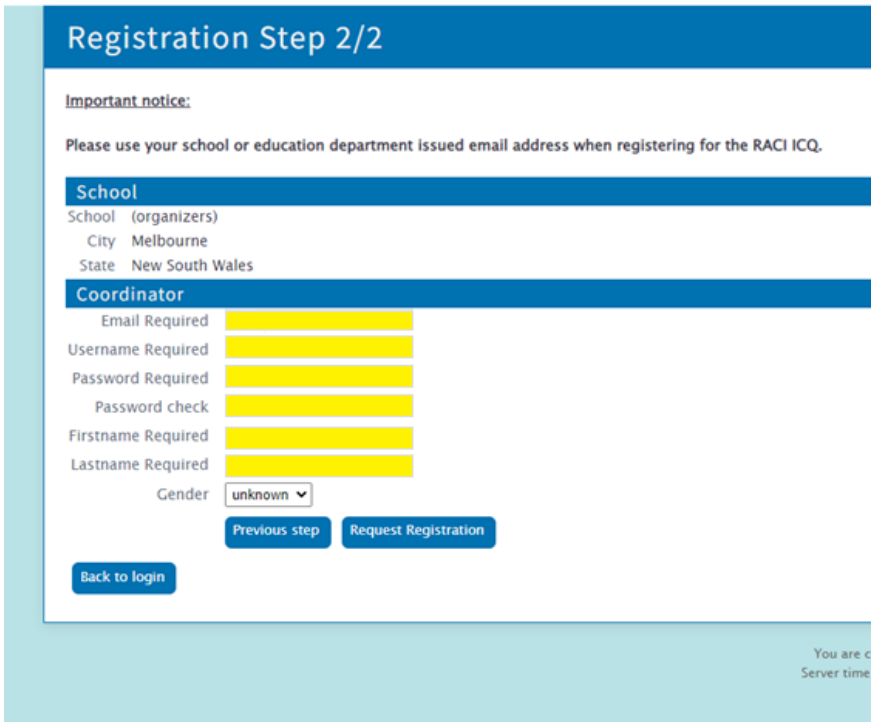

Next you will see the below screen,

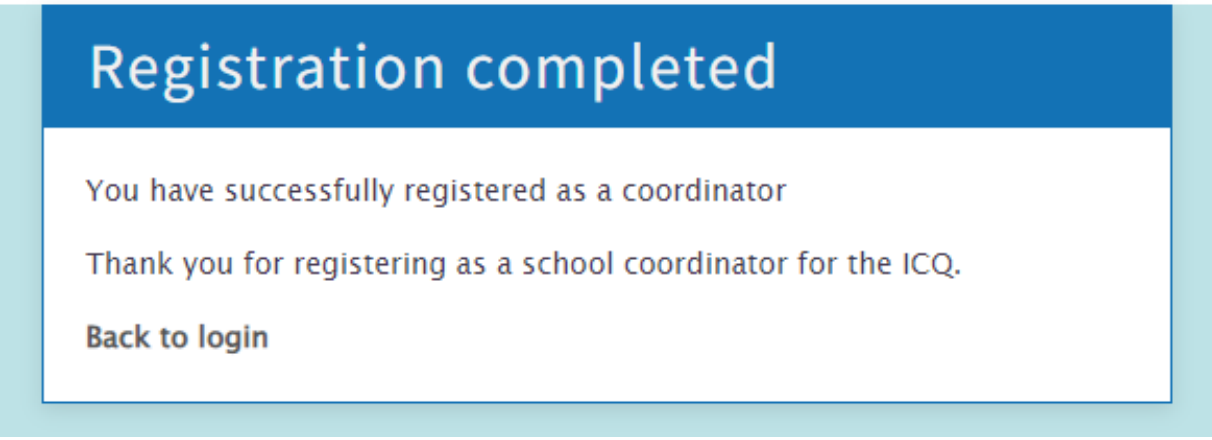

Please enter your personal school email address, the **email YOU** have access to so you can check the "reset your password" if you are locked out. (see page 4 for more details on account approval wait times).

Enter details in all the yellow fields.

You will see the below registration message.

Account Approval

When you have registered an account with our platform, we will approve your access, and add the required places for student names based on your school purchase.

Please allow at least 48 hours for approval to take place, (business days only). This allows the ICQ coordinator time to login to the platform and approve the account manually.

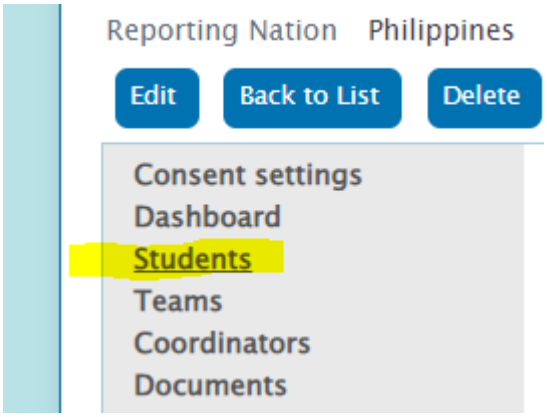

You will be able to access the online platform when your account has been approved on the platform and take the next steps.

If you make an attempt to log in and it does not work the platform will give you a message to let you know the reason.

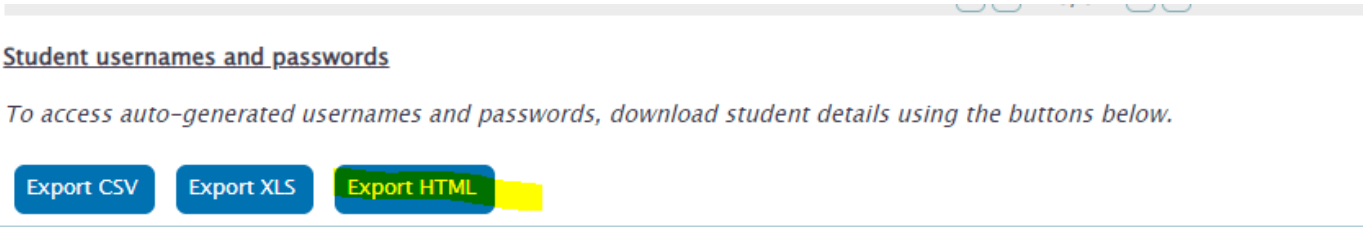

How to Access Online Students login details

To access student accounts on the online platform please follow these instructions.

1. Log in to your school account as a coordinator via the link https://icquiz-raci.org/admin/
2. Go to the "students" tab on the left hand side menu.

3. Scroll to the bottom of the page and use the Export HTML to get a list of user names and passwords. This will present a document you can print to see all your student logins.

4. This year, you will know the year levels or divisions for each login, by reading the **Username prefix**. See below the username in this example is JNRDIV1001, with JNRDIV1 the abbreviation for Junior Division1.

   The year level starts with a 3 in this example as it is for Round 3 – this is the round you are accessing this year.

It is recommended to print and cut out each username into squares for each student, to provide to your students on the day of the Quiz.

Please **make sure you proved the correct Division or year level login details** to your students.

These are the age and year levels for each division.

- Junior Division 1 (Ages 12 - 13 / Year 7)
- Junior Division 2 (Ages 13 - 14 / Year 8)
- Intermediate 1 (Ages 14 - 15 / Year 9)
- Intermediate 2 (Ages 15 - 16 / Year 10)
- Senior (Ages 16 - 17 / Year 11)
- Final (Ages 17 - 18 / Year 12)

Do NOT use the student login details for your student accounts to test access to the quiz. As soon as you login with the details and hit **start** it will **"start"** the Quiz for those accounts, and when the time runs out (one hour after login to the quiz) it will automatically mark as complete.

ONLY let the student's login on the quiz day with their login details at the time of the Quiz.

When the student login, the system will ask them to

1. Enter their first name

2. Enter their surname (last name)

Teachers can print additional documents for the students to use with the Quiz.

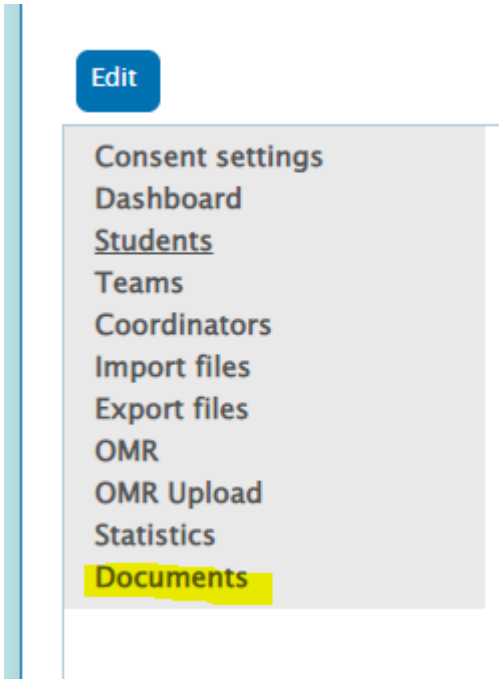

The students who are participating in the Hard Copy Quiz will have access to a periodic table and some year levels have data sheets.
(Please note year 9 and 10 students do not have a data sheet for the 2022 quiz)

You can download and print these for your Online Quiz participants to have beside their computers while they sit the Quiz.

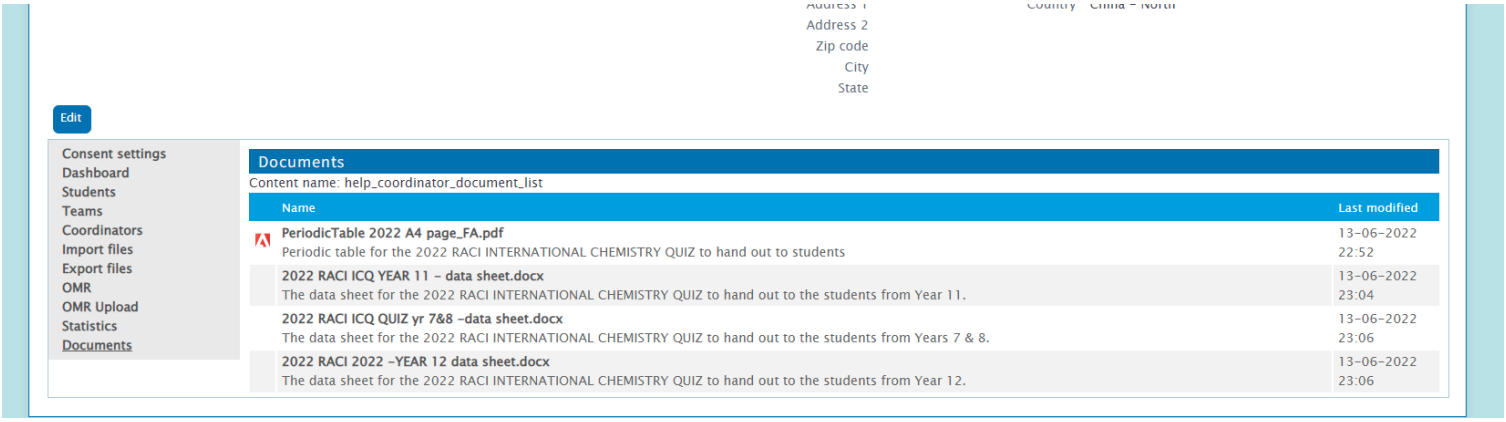

The students also have access to these documents from the Quiz itself when they log in (see page 14).
It is recommend that you print the sheets for students, as it is easier for them to view in hard copy format, and reminds them to use when sitting the quiz.

How to print documents in advance for the students

1. Log into your school.
2. Go to the side tab documents.

3. You will see a list of all the documents available to assist the students. Click on these and then print copies for all your ONLINE Quiz Students.
(The screen shot below shows the 2022 examples)

Students access to the Quiz

On the Quiz day please ask the students to go to the competition link:

ATTENTION: Please note that this is a different link to the Teachers access to the Platform!

Look at it carefully and make sure your browser does not prefill to your teacher link by mistake.

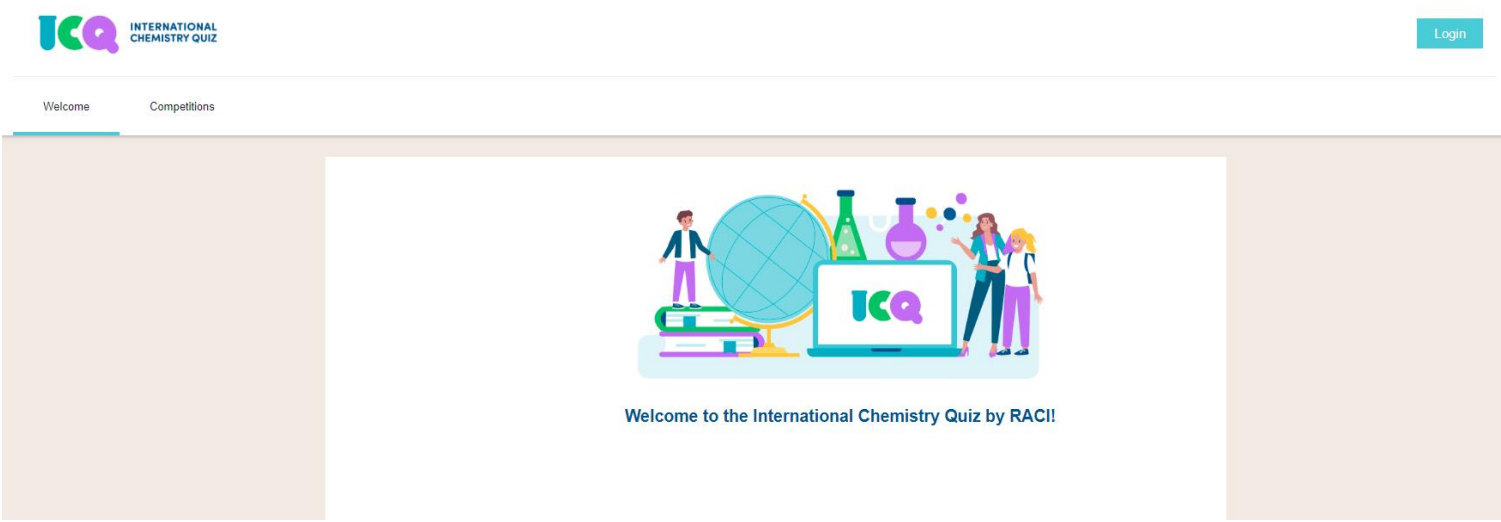

TIP!: If the login screen is Baby Blue you are on the teacher login page.
If it is Pink it is the student login page!

Teacher Link:
https://icquiz-raci.org/admin/

Student link

https://icquiz-raci.org/

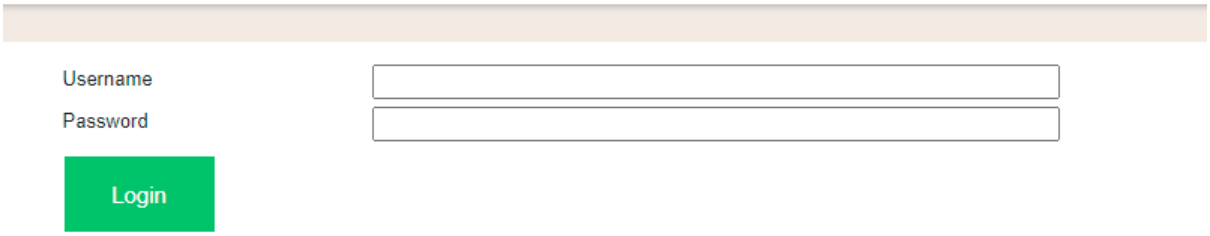

The student should see this page below,

Next; request your students go to the top right-hand side of the page, and use the log in button.

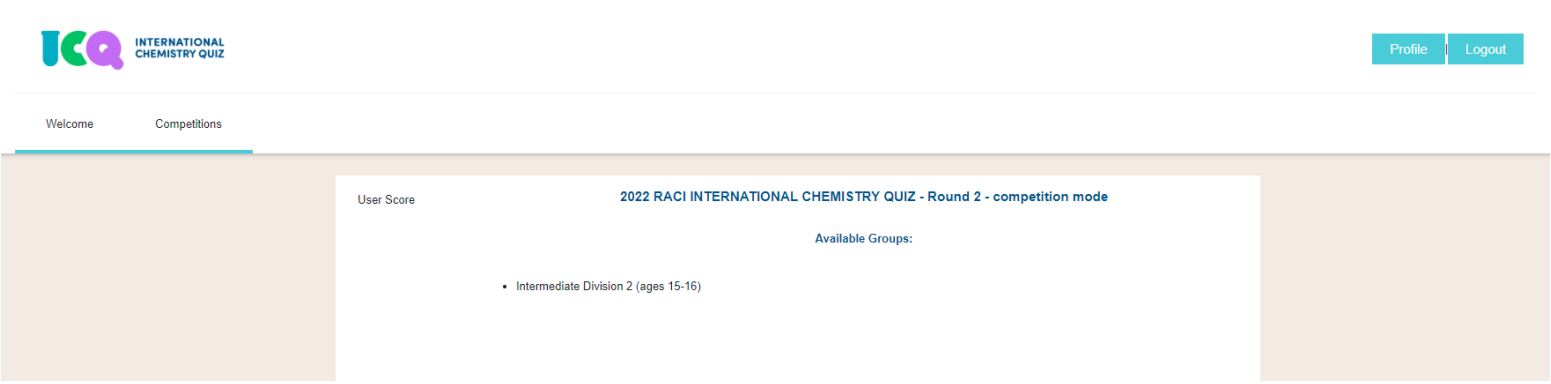

Using the username and password provided to them, ask your student to log into the quiz. Ensure they have been given login details for the **correct DIVISION or year level.**

When they login a Quiz will be available for them, based on the assigned Divisional level for those log in details.

This example shows **Intermediate Division** → The student will need to click on the Intermediate Division:

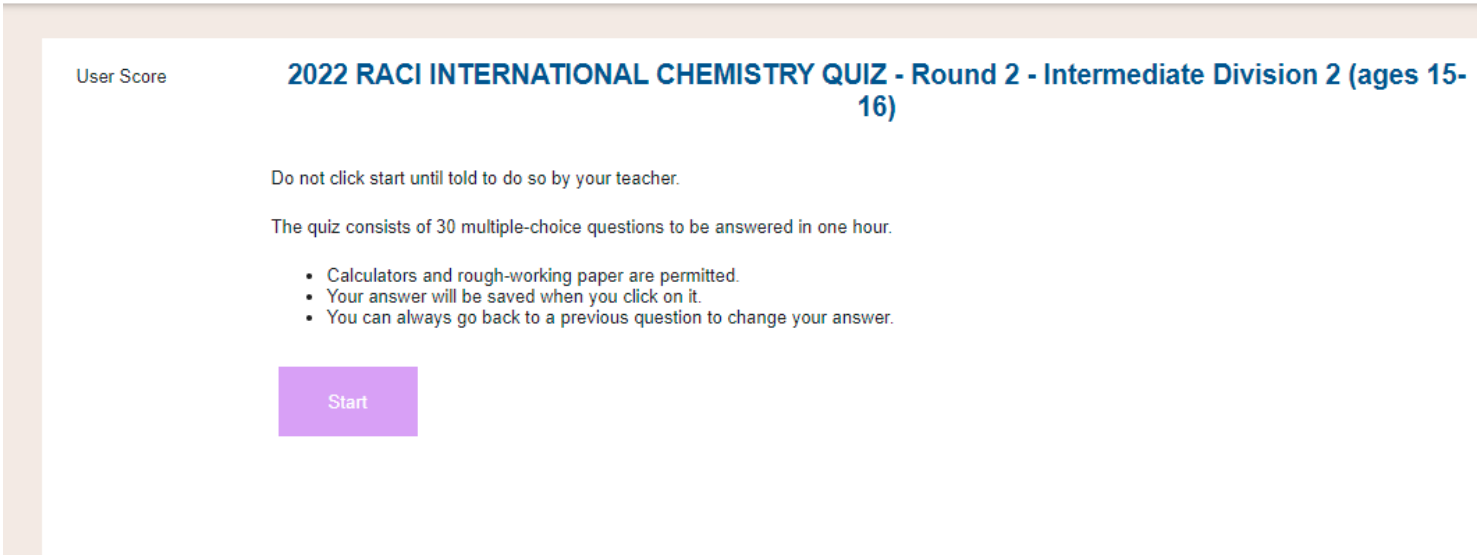

At this point the
student can PAUSE
until the teacher OFFICIALLY starts the QUIZ.

The Start Screen

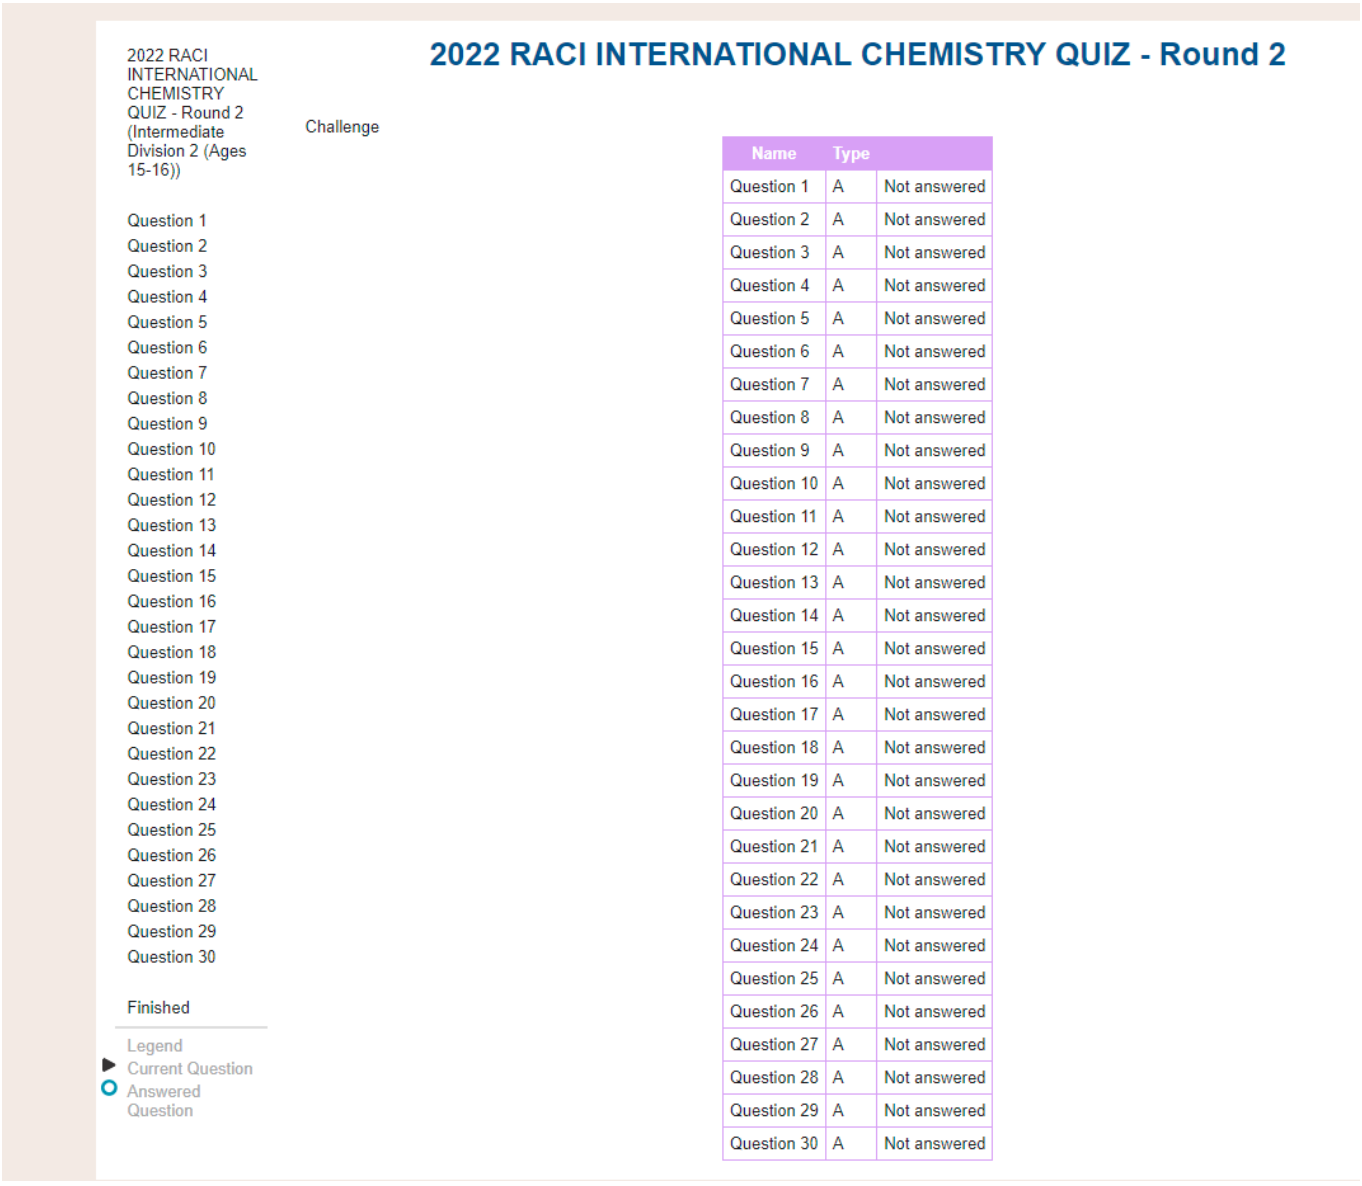

The students will see the below screen and wait until the teacher in charge tells them they can start the quiz.

When they click the start button, the 1 hr (60 min) Quiz will commence.

The Quiz has commenced

The below screen shot is an example of the student view of the quiz.

Question 30	A	Not answered

This screen shot shows the left had view on the screen.

- The round blue circle highlighted in yellow shows the question that has been answered.
- The blue arrow points to the question the student is currently attempting.

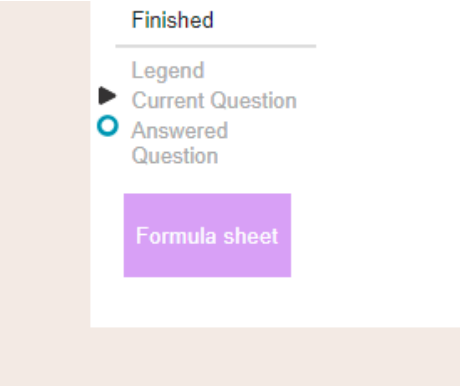

Far right of the screen the time counts down,

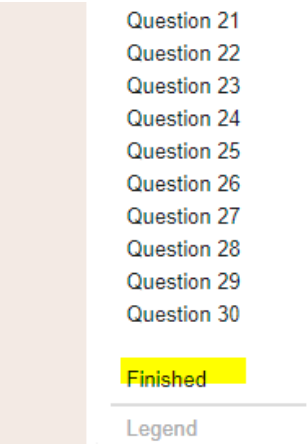

The student's can access the all pre-approved documents data sheets and periodic tables for the quiz from the button seen at the bottom left of their screen called "formula Sheet'.

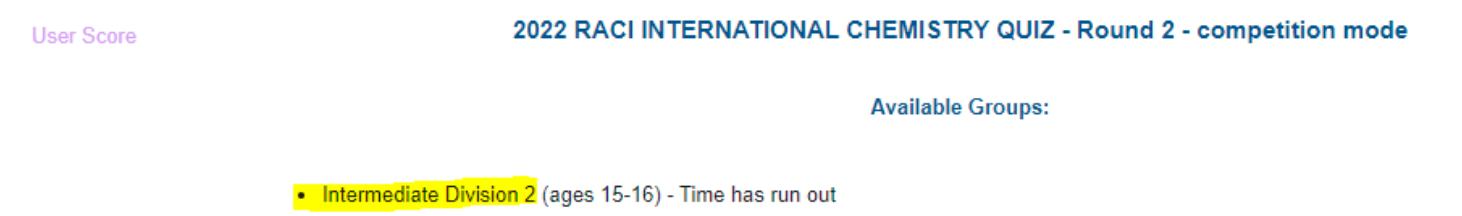

Teachers have been recommended to print these documents for the students on page 6 of this guide.

To end the quiz the student can click the button **FINISHED.**

If the student clicks the finished button and then attempts to log back into the quiz, they will get the below message. Informing them their time has run out.

After the Competition

The students ICQ will be marked by the online platform and collated with those students who participated with hardcopy papers this year.

We will notify the teacher who purchased the ICQ via email, when you are able to access your students results.

Good luck to all your students participating in the ICQ!
